

Intuitive Announces Second Quarter Earnings

July 20, 2021

SUNNYVALE, Calif., July 20, 2021 (GLOBE NEWSWIRE) -- Intuitive (the "Company") (Nasdaq: ISRG), a global technology leader in minimally invasive care and the pioneer of robotic-assisted surgery, today announced financial results for the quarter ended June 30, 2021.

Q2 Highlights

- Worldwide da Vinci procedures grew approximately 68% compared with the second quarter of 2020. The second quarter of 2020 reflected significant disruption caused by the COVID-19 pandemic, and the second quarter of 2021 reflected a continued recovery in procedures and also included the performance of a number of procedures that were deferred during the pandemic. The compound annual growth rate between the second quarter of 2019 and the second quarter of 2021 was 16.5%.
- The Company shipped 328 da Vinci Surgical Systems, an increase of 84% compared with 178 in the second quarter of 2020.
- The Company grew its da Vinci Surgical System installed base to 6,335 systems as of June 30, 2021, an increase of 10% compared with 5,764 as of the end of the second quarter of 2020.
- Second quarter 2021 revenue of \$1.46 billion increased 72% compared with \$0.85 billion in the second quarter of 2020. The compound annual growth rate between the second quarter of 2019 and the second quarter of 2021 was 15%.
- Second quarter 2021 GAAP net income was \$517 million, or \$4.25 per diluted share, compared with \$68 million, or \$0.57 per diluted share, in the second quarter of 2020.
- Second quarter 2021 non-GAAP* net income was \$477 million, or \$3.92 per diluted share, compared with \$132 million, or \$1.11 per diluted share, in the second quarter of 2020.

Q2 Financial Summary

Gross profit, income from operations, net income, net income per diluted share, and diluted shares are reported on a GAAP and non-GAAP* basis. The non-GAAP* measures are described below and are reconciled to the corresponding GAAP measures at the end of this release.

Second quarter 2021 revenue was \$1.46 billion, an increase of 72% compared with \$0.85 billion in the second quarter of 2020. The compound annual growth rate between the second quarter of 2019 and the second quarter of 2021 was 15%. Higher second quarter revenue was driven by growth in da Vinci procedures and system placements. In conjunction with the Company's 2020 COVID-19 Customer Relief Program, second quarter 2020 revenue was reduced by \$59 million for service fee credits provided to customers.

Second quarter 2021 instruments and accessories revenue increased by 73% to \$796 million, compared with \$461 million in the second quarter of 2020, primarily driven by approximately 68% growth in da Vinci procedure volume.

Second quarter 2021 systems revenue increased by 68% to \$440 million, compared with \$261 million in the second quarter of 2020. The Company shipped 328 da Vinci Surgical Systems in the second quarter of 2021, compared with 178 systems in the second quarter of 2020. The second quarter 2021 system shipments included 108 systems shipped under operating lease and usage-based arrangements, compared with 52 systems in the second quarter of 2020.

Second quarter 2021 GAAP income from operations increased to \$511 million, compared with \$81 million in the second quarter of 2020. Second quarter 2021 GAAP income from operations included share-based compensation expense of \$110 million, compared with \$96 million in the second quarter of 2020. Second quarter 2021 non-GAAP* income from operations increased to \$630 million, compared with \$193 million in the second quarter of 2020.

Second quarter 2021 GAAP net income was \$517 million, or \$4.25 per diluted share, compared with \$68 million, or \$0.57 per diluted share, in the second quarter of 2020. Second quarter 2021 GAAP net income included excess tax benefits of \$44 million, or \$0.36 per diluted share, compared with \$32 million, or \$0.26 per diluted share, in the second quarter of 2020. Second quarter 2021 GAAP net income also included an income tax benefit from re-measurement of certain deferred tax assets of \$66 million, or \$0.55 per diluted share. This benefit is excluded from non-GAAP net income.

Second quarter 2021 non-GAAP* net income was \$477 million, or \$3.92 per diluted share, compared with \$132 million, or \$1.11 per diluted share, in the second quarter of 2020. Second quarter 2020 GAAP and non-GAAP* net income included a discrete tax expense of \$37 million, or \$0.31 per diluted share, arising from the conclusion of a tax matter.

The Company ended the second quarter of 2021 with \$7.7 billion in cash, cash equivalents, and investments, an increase of \$504 million during the quarter, primarily driven by cash generated from operations.

"We are pleased with our second quarter procedure growth and financial results, which reflect both the demand for high-quality minimally invasive procedures as well as a return to surgeries deferred during the pandemic," said Intuitive CEO Gary Guthart.

Additional supplemental financial and procedure information has been posted to the Investor Relations section of the Intuitive website at <https://isrg.gcs-web.com/>.

Webcast and Conference Call Information

Intuitive will hold a teleconference at 1:30 p.m. PDT today to discuss the second quarter 2021 financial results. The call will be webcast by Nasdaq OMX and can be accessed on Intuitive's website at www.intuitive.com or by dialing (877) 692-8955 using the access code 5830756.

About Intuitive

Intuitive (Nasdaq: ISRG), headquartered in Sunnyvale, California, is a global technology leader in minimally invasive care and the pioneer of robotic-assisted surgery. At Intuitive, we believe that minimally invasive care is life-enhancing care. Through ingenuity and intelligent technology, we expand the potential of physicians to heal without constraints.

Intuitive brings more than two decades of leadership in robotic-assisted surgical technology and solutions to its offerings and develops, manufactures, and markets the da Vinci Surgical System and the Ion endoluminal system.

Da Vinci® and Ion™ are trademarks or registered trademarks of Intuitive Surgical, Inc.

Forward-Looking Statements

This press release contains forward-looking statements. These forward-looking statements are necessarily estimates reflecting the best judgment of the Company's management and involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. These forward-looking statements include, but are not limited to, statements related to the expected impacts of the COVID-19 pandemic on our business, financial condition, and results of operations; the potential impact on our procedure volume, our acquisitions, our expected business, our expected new product introductions, the impacts of Extended Use Instruments, procedures and procedure adoption, future results of operations, future financial position, our ability to increase our revenues, the anticipated mix of our revenues between product and service revenues, our financing plans and future capital requirements, anticipated costs of revenue, anticipated expenses, our potential tax assets or liabilities, the effect of recent accounting pronouncements, our investments, anticipated cash flows, our ability to finance operations from cash flows and similar matters, and statements based on current expectations, estimates, forecasts, and projections about the economies and markets in which we operate and our beliefs and assumptions regarding these economies and markets. These forward-looking statements should be considered in light of various important factors, including, but not limited to, the following: our ability to obtain accurate procedure volume and mix in the midst of the COVID-19 pandemic; the risk that the COVID-19 pandemic could lead to further material delays and cancellations of, or reduced demand for, procedures; curtailed or delayed capital spending by hospitals; disruption to our supply chain, including increased difficulties in obtaining a sufficient amount of materials in the semiconductor and other markets; closures of our facilities; delays in surgeon training; delays in gathering clinical evidence; delays in obtaining new product approvals or clearances from the U.S. Food and Drug Administration due to the effects of the COVID-19 pandemic; the evaluation of the risks of robotic-assisted surgery in the presence of infectious diseases; diversion of management and other resources to respond to COVID-19 outbreaks; the impact of global and regional economic and credit market conditions on healthcare spending; the risk that the COVID-19 virus disrupts local economies and causes economies in our key markets to enter prolonged recessions; healthcare reform legislation in the U.S. and its impact on hospital spending, reimbursement, and fees levied on certain medical device revenues; changes in hospital admissions and actions by payers to limit or manage surgical procedures; the timing and success of product development and market acceptance of developed products; the results of any collaborations, in-licensing arrangements, joint ventures, strategic alliances, or partnerships, including the joint venture with Shanghai Fosun Pharmaceutical (Group) Co., Ltd.; our completion of and ability to successfully integrate acquisitions, including Schöelly Fiberoptic's robotic endoscope business and Orpheus Medical; procedure counts; regulatory approvals, clearances, and restrictions or any dispute that may occur with any regulatory body; guidelines and recommendations in the healthcare and patient communities; intellectual property positions and litigation; competition in the medical device industry and in the specific markets of surgery in which we operate; risks associated with our operations outside of the United States; unanticipated manufacturing disruptions or the inability to meet demand for products; our reliance on sole and single source suppliers; the results of legal proceedings to which we are or may become a party; product liability and other litigation claims; adverse publicity regarding us and the safety of our products and adequacy of training; our ability to expand into foreign markets; the impact of changes to tax legislation, guidance, and interpretations; changes in tariffs, trade barriers, and regulatory requirements; and other risk factors. Readers are cautioned not to place undue reliance on these forward-looking statements, which are based on current expectations and are subject to risks, uncertainties, and assumptions that are difficult to predict, including those risk factors identified under the heading "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2020, as updated by the Company's other filings with the Securities and Exchange Commission. Statements using words such as "estimates," "projects," "believes," "anticipates," "plans," "expects," "intends," "may," "will," "could," "should," "would," "targeted," and similar words and expressions are intended to identify forward-looking statements. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this press release. The Company undertakes no obligation to publicly update or release any revisions to these forward-looking statements, except as required by law.

***About Non-GAAP Financial Measures**

To supplement its consolidated financial statements, which are prepared and presented in accordance with accounting principles generally accepted in the United States ("GAAP"), the Company uses the following non-GAAP financial measures: non-GAAP gross profit, non-GAAP income from operations, non-GAAP net income, non-GAAP net income per diluted share ("EPS"), and non-GAAP diluted shares. The presentation of this financial information is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP.

The Company uses these non-GAAP financial measures for financial and operational decision-making and as a means to evaluate period-to-period comparisons. The Company believes that these non-GAAP financial measures provide meaningful supplemental information regarding its performance and liquidity by excluding items such as intangible asset charges, share-based compensation ("SBC") expenses, and other special items. Intangible asset charges consist of non-cash charges, such as the amortization of intangible assets, as well as in-process R&D charges. The Company believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing its performance and when planning, forecasting, and analyzing future periods. These non-GAAP financial measures also facilitate management's internal comparisons to its historical performance and liquidity. The Company believes these non-GAAP financial measures are useful to investors, because (1) they allow for greater transparency with respect to key metrics used by management in its financial and operational decision-making, and (2) they are used by institutional investors and the analyst community to help them analyze the performance of the Company's business.

Non-GAAP gross profit. The Company defines non-GAAP gross profit as gross profit, excluding intangible asset charges, expenses related to SBC, and litigation charges and recoveries.

Non-GAAP income from operations. The Company defines non-GAAP income from operations as income from operations, excluding intangible asset charges, certain acquisition-related items for the re-measurement of contingent consideration, expenses related to SBC, and litigation charges and recoveries.

Non-GAAP net income and EPS. The Company defines non-GAAP net income as net income (loss), excluding intangible asset charges, non-cash impairment charges and recoveries, certain acquisition-related items for the re-measurement of contingent consideration, expenses related to SBC, litigation charges and recoveries, unrealized gains on strategic investments, adjustments attributable to noncontrolling interest in joint venture, net of the related tax effects, and tax adjustments, including the excess tax benefits or deficiencies associated with SBC arrangements, a one-time tax benefit from re-measurement of certain deferred tax assets, and the net tax effects related to intra-entity transfers of non-inventory assets. The Company excludes a one-time tax benefit from re-measurement of certain deferred tax assets, because it is discrete in nature, and excludes the excess tax benefits or deficiencies associated with SBC arrangements as well as the tax effects associated with non-cash amortization of deferred tax assets related to intra-entity non-inventory transfers, because the Company does not believe these items correlate with the on-going results of its core operations. The tax effects of the non-GAAP items are determined by applying a calculated non-GAAP effective tax rate, which is commonly referred to as the with-and-without method. Without excluding these tax effects, investors would only see the gross effect that these non-GAAP adjustments had on the Company's operating results. The Company's calculated non-GAAP effective tax rate is generally higher than its GAAP effective tax rate. The Company defines non-GAAP EPS as non-GAAP net income divided by non-GAAP diluted shares, which are calculated as GAAP weighted average outstanding shares plus dilutive potential shares outstanding during the period.

There are a number of limitations related to the use of non-GAAP measures versus measures calculated in accordance with GAAP. Non-GAAP gross profit, non-GAAP income from operations, non-GAAP net income, and non-GAAP EPS exclude items such as intangible asset charges, re-measurement of contingent consideration, SBC, excess tax benefits or deficiencies associated with SBC arrangements, and non-cash amortization of deferred tax assets related to intra-entity transfer of non-inventory assets, which are primarily recurring items. SBC has been, and will continue to be for the foreseeable future, a significant recurring expense in the Company's business. In addition, the components of the costs that the Company excludes in its calculation of non-GAAP net income and non-GAAP EPS may differ from the components that its peer companies exclude when they report their results of operations. Management addresses these limitations by providing specific information regarding the GAAP amounts excluded from non-GAAP net income and non-GAAP EPS and evaluating non-GAAP net income and non-GAAP EPS together with net income (loss) and net income (loss) per share calculated in accordance with GAAP.
